Gifted Screening and Identification

Ohio Administrative Code 3301-51-15(C)(2)(B)(iv)(c) requires school districts to submit proposed changes to district gifted identification plans, including the adoption of new editions of tests, to the Ohio Department of Education for approval.

[District Policy for the Identification of and Services for Students Who Are Gifted](#) 

This form's purpose is to provide parents with detailed information about district practices related to gifted identification and services. When creating this document, consider that parents are the primary audience.

Submit the form electronically to ODE for review and approval. Highlight the changes the district has made to the prior document. Only submit documents that contain changes. See below for contact information.

If necessary, obtain local board approval of the proposed changes. This step may not be required in all districts; check board policy with the district administration.

Summary of Key Points of the Mid-Biennium Review

Identification of Gifted Students Using Above-Grade Level Testing

The American College Test (ACT), the Scholastic Aptitude Test (SAT) and the EXPLORE Test have been approved for use in the identification of gifted students in select grade levels. Below is information about scoring these tests as a means of identifying gifted students. The revised cutoff scores should be used to identify students who have been tested after February 1, 2009.

CUTOFF SCORE TABLE

The cutoff scores listed below are derived from data from the Midwest Talent Search, which allows large numbers of highly capable students to take tests designed for older students at an early age. The cutoff scores set are at or above the mean scores of students participating in the talent search. Because virtually all students participating in the Midwest Talent Search score at or above the 95th percentile on grade level standardized achievement tests, the cutoff scores listed set a standard at least equivalent to (and likely much higher than) the 95th percentile on other approved achievement tests given at the normal grade level.

| Area of Gifted Identification | Grade 6 | Grade 7 | Grade 8 | Grade 9 |
|-------------------------------|-----------------------|-----------------------|-----------------------|-----------------------|
