

SPECIAL BONUS SESSION – MONDAY, OCTOBER 16, 2023

EASTON BALLROOM C, D, and E

3:30 PM

Gifted “Recipe” Swap

Presented by: YOU!

Come start a new tradition at the OAGC Fall Conference by participating in a bonus session! Brian Housand has generously offered to kick off for Ohio the hugely popular annual tradition he began more than a decade ago at the NAGC convention. He’s providing us a tweak to broaden his yearly “Speed Geeking” session to all teaching techniques—tech and more!

Swap on the spot! We’ll give you five minutes, and you give us a recipe for a tasty tool or strategy! Something to appeal to the gifted educator palate—an educational app your students love, a puzzle that gets them thinking, an annual can’t-miss event to support social needs, a fantastic leadership or service project, an awesome anchor activity, the best-kept secret to keep you organized, anything! Let your creativity flow! For five minutes. Because when the timer dings, your time’s up, and the next chef shares.

No recipe? No problem! Come for the tasting! Sample lots of delicious tools, and cheer on our presenting chefs! Join the crowd in Easton Ballroom C, D, and E to make this treat a highlight of our annual feast together!

This is an informal setting so feel free to bring a beverage or snack to the session.
